The Quarterly E-Newsletter

May Web Design, LLC

Donna May, Website Designer

Happy Spring! I sincerely hope that as the flowers bloom and the sun shines brighter, you are making remarkable progress towards your business goals and adventures. Wishing you continued success and joy as the season unfolds.

Website launches are exciting, but I also spend time updating websites and creating forms for different organizations and small businesses. I enjoy meeting new people and learning about what they do.

Websites should always evolve to reflect the growth and progress of a business or nonprofit organization. Updating with new pictures and videos effectively showcases the current activities and offerings. Wherever your business or organization takes you, your website should easily grow and change to meet those needs.

May Web Design, LLC, specializes in creating professional, user-friendly websites that empower clients to manage their online presence. My business model is straightforward - I transform your vision into a fully functional website and provide you with the necessary tools to effortlessly maintain and update your platform.

New websites are always a cause for celebration

New Websites

Always a cause for celebration!

I am honored when chosen to design a website for a client. I strive to give my clients the website they envision. We discuss in detail what they need and want in a website. I build their dream in a way that they can easily update and build on to keep the website fresh and new for their clients and members.

GreenWorks Systems offers energy audits and home upgrades in Baltimore and Central Maryland. They aim to improve your home's comfort, lower energy costs, reduce environmental impact, and boost resale value. GreenWorks Systems offers Code Required Testing in Baltimore and Central Maryland for businesses. GreenWorks Systems LLC is a locally owned business operated by experts in the field. Their specialization lies in the intricate knowledge of home construction, thanks to the team members who bring vast experience in building homes. Understanding how homes are put together enables them to offer comprehensive assistance for a wide range of home improvements. From foundational elements to finishing touches, they have the expertise to handle almost everything within your home.

The Learning and Therapy Corner (LTC) stands out as one of the most comprehensive pediatric clinics in the area. Specializing in a wide range of services tailored to meet the unique needs of children. Their dedicated team of professionals is committed to providing excellent care in a welcoming and supportive environment. LTC provides Speech and Language Therapy, Occupational Therapy, Psychological and Behavioral Health Services, Reading and Tutoring Programs, Canine Assisted Therapy, and Early Learning Enrichment Programs. Services are offered at their office, in schools, or through tele therapy. They offer a preschool curriculum-based half-day program, The Little Corner Academy, that provides a nurturing environment for young learners to explore, grow, and thrive.

Reviews

Google Reviews on your Website

REAL TIME GOOGLE REVIEWS

Squarespace has so many features included in their website platform that there are few times when widgets are needed. A widget is an application that allows you to perform a function that a platform cannot perform alone. I prefer not to add widgets to a website as it slows the site down. Recently, I learned about Elfsight.com where you can add one free widget. They have multiple widgets, but you need to pay to use more than one. The reviews are updated automatically, and the incoming information can be customized by design, style, and color.

Canva.com is a versatile graphic design platform that I frequently utilize for both personal projects and business endeavors. It's a tool I consistently recommend to friends and clients due to its user-friendly interface and extensive range of preloaded templates, which can be easily customized to suit various needs. Additionally, Canva offers the flexibility to create designs from scratch, making it a go-to choice for all levels of design proficiency.

Donna M. May

May Web Design, LLC creates professional, user-friendly websites that empower clients to manage their online presence.

My early years were formed in small businesses. My parents were business owners and taught me early on about the struggles, successes, and accomplishments of creating and growing a dream. After college, I worked in the corporate world and was proud to learn and be part of companies that endured through the years. Since then, I have spent many years volunteering and working with non-profits. I tried to find easier ways to keep all the information fresh and new without having to spend time and money waiting for others to update.

My business model is straightforward. I specialize in transforming your vision into a fully functional website while empowering you with the necessary tools to effortlessly maintain and update your platform.

Imagine. Innovate. Invigorate.

Dream and Grow your vision for your business or nonprofit organization website.

Many websites are outdated or simply cannot be updated easily. New website design may be overwhelming. The most important part of my business is empowering website owners to update their website themselves, always keeping it fresh and new.

If you already have a Squarespace website, take a look at the Learning and Community section for websites, forums, guides, and videos. Useful information. <https://learning.squarespace.com>
